FOR YOUR INFORMATION — Federal Identification (I.D.) Card

The Federal Boxing Act of 1997 requires every professional boxer to obtain a federal I.D. card from his or her state of residence. The CSAC will also issue an I.D. to all Martial Arts Athletes. The following rules are to be followed by the athlete (both professional boxing and martial arts):

- If the athlete resides in a state or country where there is no athletic commission, you must register in a state that has an athletic commission.
- The athlete must appear in person at a commission office possessing photo identification with date of birth.
- This I.D card ***must*** be in the athlete's possession at the time of the weigh-in. No exceptions. This I.D. is not a *federal identification card* and a *federal identification card is not an athlete license*. You must have both the I.D. card and the license in order to compete.

All questions and other information required on the application/medical forms must be completed, signed and dated. Otherwise, the forms *will be returned* for completion. ***Original forms must be submitted.*** Faxed copies *will not* be accepted.
